# Spain's Hydrocarbon Market: Key Shifts in 2022–2024

Discover the changing landscape of fuel consumption  
across Spain. Swipe to explore the data →

# Total Hydrocarbon Consumption

**52.04**

2022

Million Mt

**51.18**

2023

Million Mt

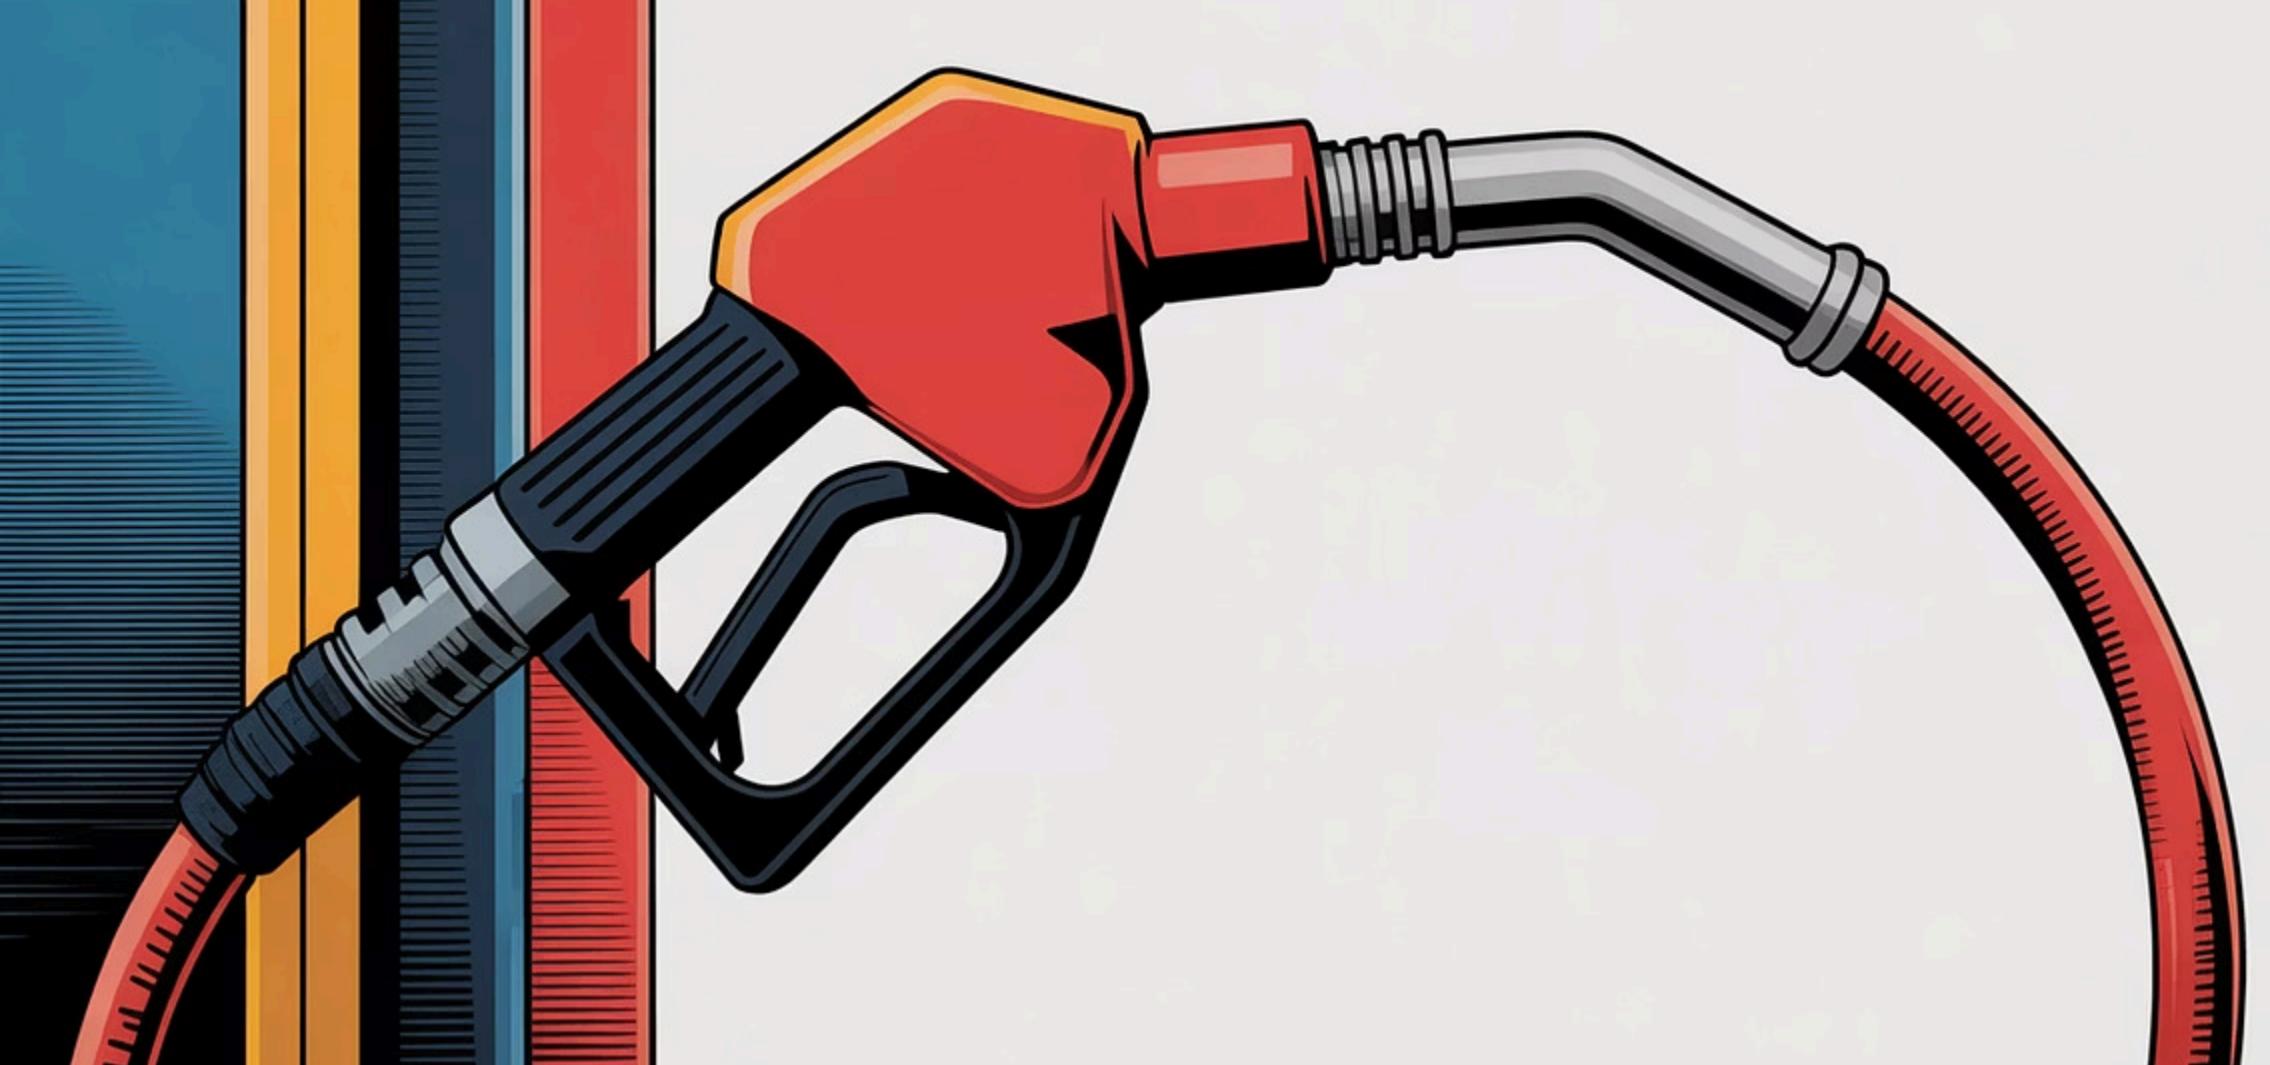

**53.34**

2024

Million Mt

## Recovery After 2023 Dip

Spain's hydrocarbon consumption rebounded in 2024 with a notable 4.22% increase, reaching 53.34 million Mt after a slight decline in 2023.

DIESEL TRENDS

# Diesel Consumption Declines

## 2022 Volume

31.66 million Mt representing  
60.8% market share

## 2024 Volume

30.04 million Mt representing  
56.3% market share

## Cumulative Change

–5.1% decrease over the two-year period

# Diesel's Declining Market Share

## Total Diesel Consumption

30.04 million Mt in 2024 (-5.1%)

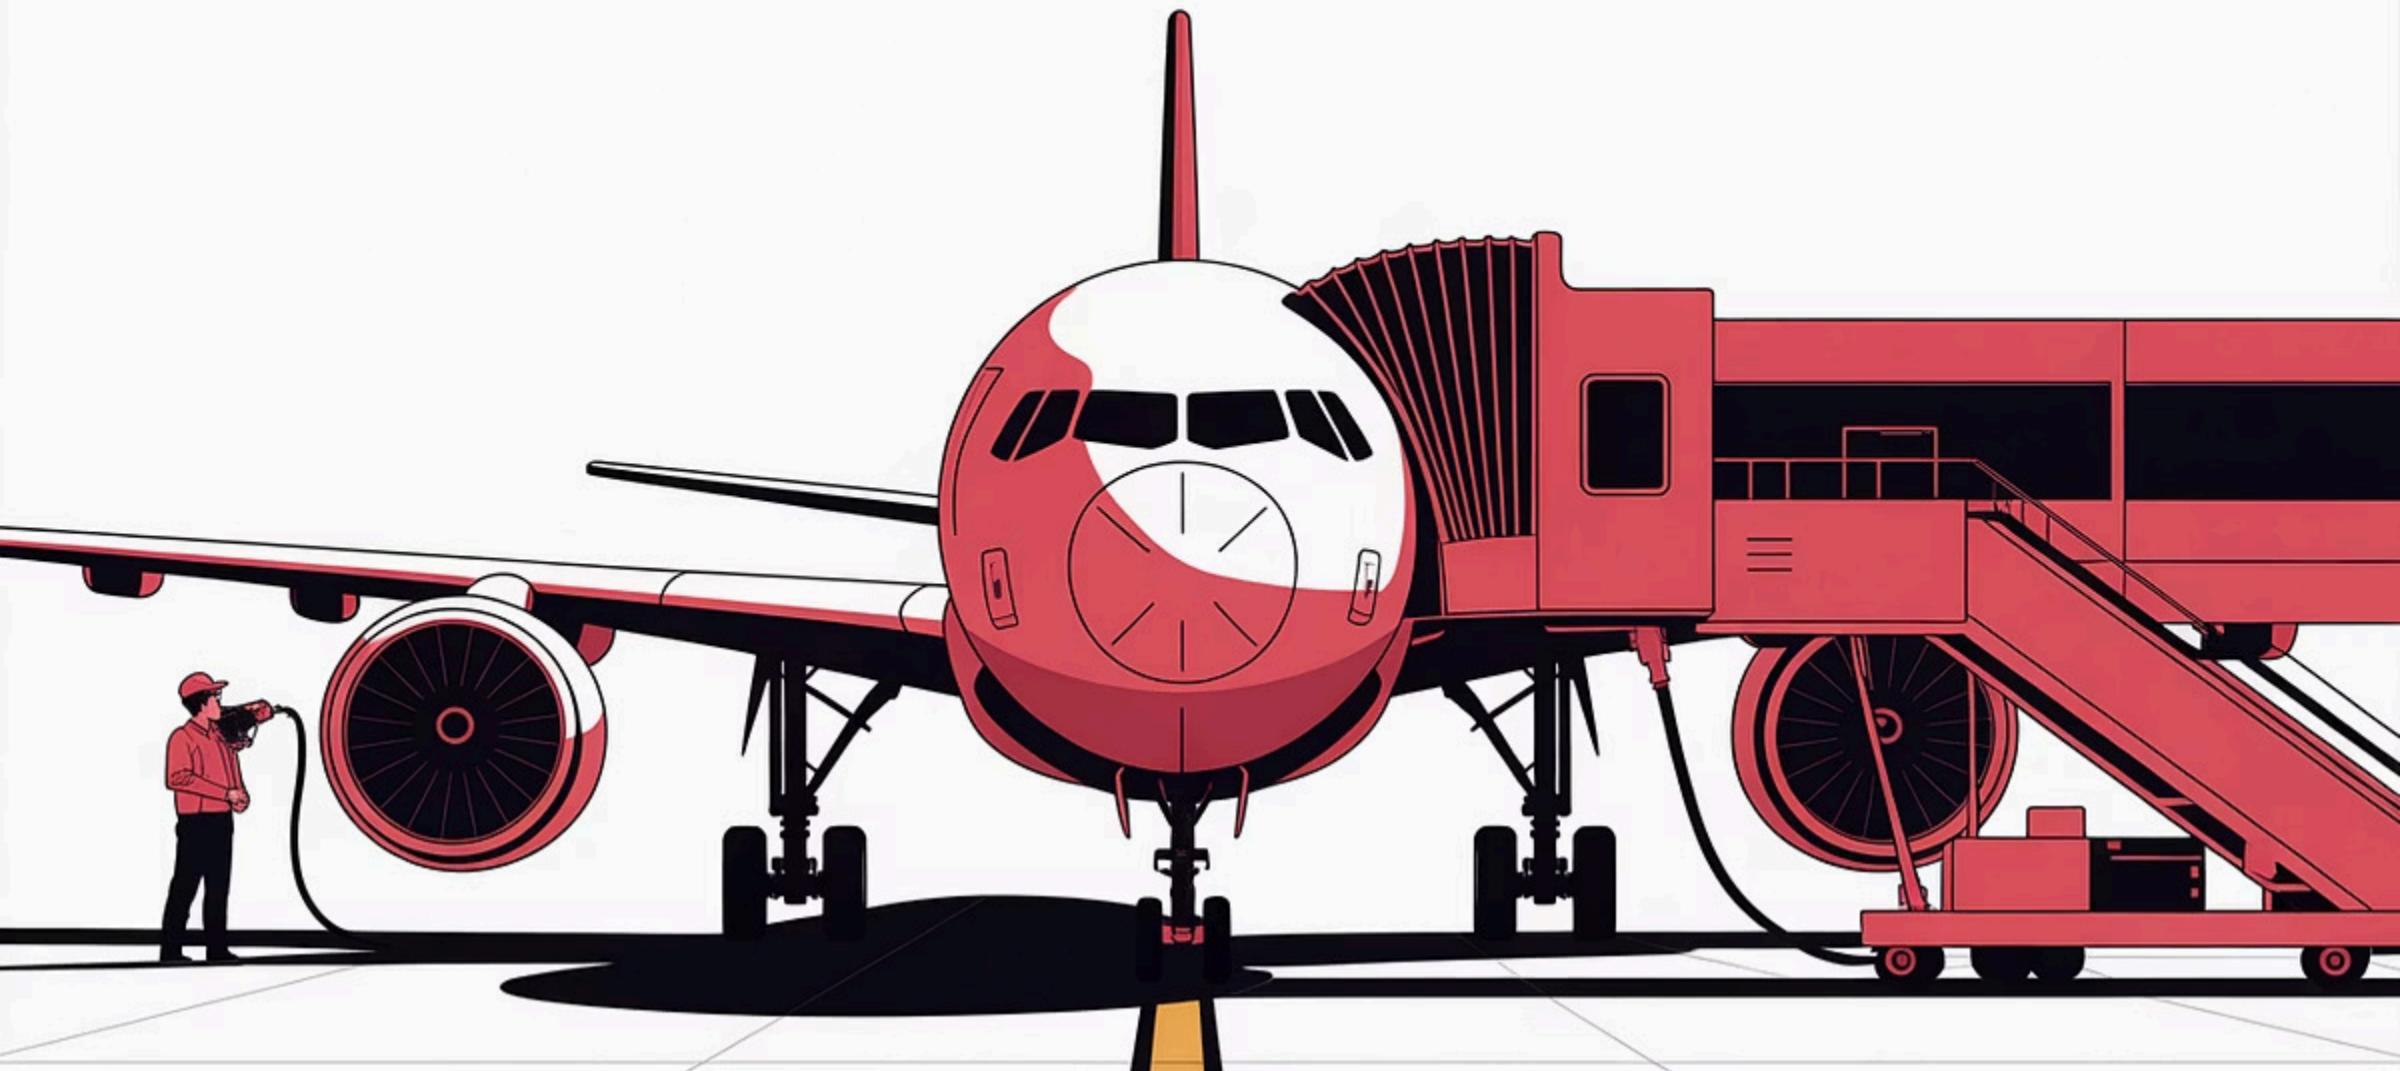

31.66 million Mt in 2022

## Shifting Preferences

Diesel's dominance weakens: share drops from 60.8% in 2022 to 56.3% in 2024, reflecting changing consumption patterns.

## Independent retail

Accounts for 15.6 million Mt annually, averaging 1.3 million Mt monthly.

GROWTH SECTORS

# Gasolines and Kerosene Surge

## Gasolines Growth

From 5.76 to 6.53 million Mt (+13.5% cumulative increase)

## Aviation Fuels Boom

Kerosene jumps from 5.87 to 7.39 million Mt (+26% cumulative)

# Service Station Network Expands

## Network Growth

285 new stations added in 2024

## Independent Segment

Approximately 6,694 stations

## Refining Groups

Around 5,937 stations

**12,631**

Total service stations  
operating across Spain in  
2024 (+2.3%)

**12,346**

Service stations in 2023

## Independent Operators

~6,694 sites (52% market presence)

## Refining Groups

~5,937 sites (48% market presence)

# ENERGY MARKET TRENDS

## KEY INSIGHTS

# Market Transformation Summary

# Diesel Decline

# Traditional diesel dominance eroding with 5.1% drop.

# Alternative Growth

**Gasolines and kerosene show strong upward momentum**

# Network Expansion

# Independent operators maintain competitive edge.

# Independent segment

Accounts for 15.6 million Mt  
annually, 1.3 million Mt monthly.
